```
const { Page } = require('@playwright/test');

class SearchPage {
  constructor(page) {
    this.page = page;
    this.searchInput = '.form-control.js-site-search-input';
  }

  async enterSearchText(text) {
    await this.page.fill(this.searchInput, text);
  }

  async getSearchInputValue() {
    return await this.page.inputValue(this.searchInput);
  }
}

module.exports = { SearchPage };
```
